RECYCLING PROGRAM DETAILS

- We only use certified EZ-Fill Bags for the Recycling Run Program from participating locations. Please note alternative bags will not be accepted.
- There will be a charge of \$7.00 per EZ-Fill Bag. The bag fee supports the cost to collect, transport, bale, and recycle plastic wrap. This is cheaper and more valuable to the economy and the environment than having the material delivered to and disposed of in a landfill.
- Pickups will be conducted throughout the months of July and August, if you require an earlier or specific date please submit your requested time frame with your submission form.
- To qualify for a direct pick-up, you must meet a 15 bag minimum. If you have less than 15 bags you may be contacted to consolidate your bags with a nearby collection location (marina, storage facility, conservation office).

RECYCLING REQUIREMENTS

- All shrink wrap must be in an EZ-Fill Bag.
- The bags must **ONLY** contain shrink wrap covers and scraps.
- **Make sure to exclude all strapping, buckles, vents, and other contaminants from the bag. (Instructional videos linked left)**
- Shrink wrap must remain clean and dry.
- **If storing outside, turn sealed bag upside down until pickup**
- Do not overstuff bags - make sure to use supplied closure device to seal the bag.
- **This program is only within the state of Michigan.**

My location has room for local boaters to drop off bags to consolidate bag pick-up. If my site is chosen as a pick up collection point I may receive a Recycle, MI sign, complimentary bags, or social media promotion.
