

# Huron-Michigan Diet Study

**WANTED!** Lake trout, steelhead, brown trout, Chinook salmon, coho salmon, Atlantic salmon and walleye stomachs from Lake Michigan and Lake Huron.

**REASON:** Researchers are trying to better understand where and when these predatory fish are eating gobies, alewife, smelt, and other food items in Lake Huron and Lake Michigan.

- 1 – Decide if you will collect stomachs from this fishing trip.
- 2 – Remove stomachs from ALL fish of each species that you are collecting.
- 3 – Place stomachs and ALL contents into plastic bag with data tag.
- 4 – Freeze or ice stomachs immediately and deposit in freezer at drop site.

#### Diet Study Data Tag

Date caught: \_\_\_\_\_  
Port fished: \_\_\_\_\_  
Species: \_\_\_\_\_  
Length (to ¼ in.): \_\_\_\_\_  
Adipose Fin Clip (Yes/No): \_\_\_\_\_  
Depth of Water (feet): \_\_\_\_\_
